Row Units

This kit contains two 726686 - 14" CNH Upper Parallel Arms that will be used to replace the existing OEM upper parallel arms. The OEM parallel arms lack the correct hole to enable the installation of the 726673 - CNH AirSpring Base Mount bracket. Remove and replace your existing parallel arms with those provided. Re-use existing hardware.

OEM parallel arms lacking a pre-drilled holes for mounting air spring brackets.

14" CNH Upper Parallel Arm replacements compatible with mounting of air spring brackets.

Parallel arm shown with 726673 - CNH AirSpring Base Mount bracket installed.

Preventative Maintenance opportunity:

This OEM parallel arm replacement process is the ideal time to inspect the bushings and replace worn or damaged components.
